

# A guide to installing your SIM card.

# SIM WiFi set up.

---

**1:** Open the back of your Payzone Plus and insert the SIM into **SIM slot 2**.

**2:** Once the SIM is inserted and the back has been replaced, the terminal will need a reboot. **Press and hold the power button** on the left-hand side of the terminal.

**3:** The above screen will now appear. Select the **Restart button**.

**4:** The Payzone Plus will now load up to show this screen.

# Important: The SIM has to be a data SIM to work.

---

**1:** When this screen appears, tap **10 times** in the area highlighted until **XAC** appears.

**2:** Now select the **XAC** option.

**3:** Enter **7913** then **Connect**.

**4:** The **Rescue Kit** screen will now appear. Select **Settings**.

# Important: The SIM has to be a data SIM to work.

---

5: Select **Network & Internet**.

6: Select **SIM cards**.

7: This screen shows you what SIM slot the card is in. It should be **slot 2**.

# What to do if you can't connect to the internet.

---

**1:** When this screen appears, tap **10 times** in the area highlighted until **XAC** appears.

**2:** Now select the **XAC** option.

**3:** Enter **7913** then **Connect**.

**4:** The **Rescue Kit** screen will now appear. Select **Settings**.

# What to do if you can't connect to the internet.

5: When this screen appears, select **Network & Internet**.

6: From the **Network & Internet** screen, select **Mobile Network**.

7: Now selected **Advance**, then select **Access Point Names**.

8: This screen will then show your operator. For example **Smartie**, you will need to fill in the correct details. Now reboot the terminal to connect (most major operator sims will pick up automatically).
